

# Journeys in the Spirit

Children's work

September 2014 Issue 91

Topical activity

Science and fun

This Topical activity is mainly a book recommendation. The book *'Cool Science Tricks'* is recommended by Ailse Phin. The book is full of fun, intriguing and just amazing experiments that can be done at home. The science of the experiments is also explained.

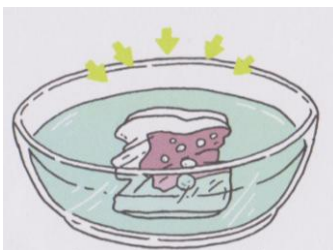

Please note – some may need adult supervision or help.

## Some of the favourite experiments include:

*'Making a home made 'lava lamp':*

*'Can crusher':*

*'Breath test':*

The book is written by Daniel Tatarsky. It is published in the United Kingdom by Portico Books, 10 Southcombe Street, London, W14 0RA

(An imprint of Anova Books Company Ltd).

**ISBN:** 9781907554698

The book can be ordered online or at the Quaker Bookshop on 0207 663 1030 or at
